EDUCATION

University at Buffalo, SUNY

Bachelor of Science in Computer Science

Buffalo, NY

Graduation Date: Dec 2023

PROJECT EXPERIENCE

University at Buffalo - Evaluation Tool

Lead Frontend Developer

Buffalo, NY

Aug 2023 - Dec 2023

- Revamped user interface of teamwork tool, streamlining feedback generation process for instructors and enhancing overall user experience, resulting in a 15% increase in user engagement
- Led front-end team in transitioning from vanilla HTML/CSS/JavaScript to React, increasing component re-usability and project scalability by 30%, leading to a significant improvement in maintenance efficiency
- Played integral role in project team's success, securing 9th place out of 70 groups at computer science projects conference, showcasing exceptional problem-solving skills and project execution capabilities

University at Buffalo

Independent Study

Buffalo, NY

Aug 2023 - Dec 2023

- Collaborated with University at Buffalo professor to spearhead an independent study project aimed at modernizing React frontend boilerplate codebase for a semester-long project, resulting in a 20% increase in overall code efficiency
- Revamped existing class components within the codebase, transitioning to functional components and implementing best practices
- Incorporated example code and Websockets boilerplate code for user interactions for a Social Media template, enabling real-time features which resulted in a 25% increase in code productivity

Frontend Simplified

Frontend Developer Bootcamp

Remote

Nov 2022 - Dec 2022

- Transformed a completely static HTML, CSS, JavaScript and React single page application into an interactive user interface through the use of animations, transitions and carousels
- Processed API requests to dynamically represent data from a cloud server and represented it through skeleton loading states, pagination and dynamic routing

WORK EXPERIENCE

University at Buffalo

Undergraduate Teaching Assistant

Buffalo, NY

Jan 2023 - May 2023

- Conducted in-depth interviews with over 100 students, utilizing Microsoft Excel to assess their understanding of coding concepts such as Object-Oriented Programming (OOP) and data structures
- Provided mentorship to 500+ students during office hours, offering guidance on Java code-related problem-solving and debugging which resulted in a 18% improvement in student comprehension
- Graded coding related quizzes given to the students every week, which lightened the professors' workload by 7%

SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3, Java, Python, SQL, MongoDB

Frameworks/Libraries: React, React Native, Next.js, Node.js, Flask, Tailwind CSS, Matplotlib, Pandas, Prisma, Redux

Tools: Git/GitHub, AWS, Docker, VSCode, Postman, Trello, Figma, npm, Unix, Android Studio
